

Ray about fifteen years of age, an infant son Ralph about thirteen years of age, an infant daughter Eloise about eleven years of age and an infant son Lee about three years of age, all of whom are in my custody near Thurmont, Frederick County, Maryland.

Will you state of what property your husband died seized and possessed?

A small farm containing about ten acres.

I now ask you to look at certified copy of a deed marked Exhibit No. 1 filed in this cause and state if it describes that property.

I have examined it and find it alright as far as I know and I believe that to be a true description of the real estate of which my husband died seized.

State who are the heirs at law and next of kin of your husband in whom said property vested upon his death.

Myself, his surviving widow, and the five children described by me are his next of kin and heirs at law in whom said real estate vested as tenants in common, all of whom are infants except C. Earl Munshour and myself, his widow.

State whether or not this property of which your husband died seized and possessed could be divided between the parties entitled without loss and injury.

No, it could not be divided. It consists of a tract of ten acres of land and is improved with a dwelling house and other buildings, and it is of such character that it would be impossible to divide it between the parties entitled without great loss and injury. It is improved with only one set of buildings.

Mrs. Munshour, of about what value is this property?

Of approximately \$2500.00.

TO THE GENERAL INTERROGATORY,

Nothing further.

*Charlotte Munshour*
